Expiration: 2021 or 2022

GEORGIA MASTER TIMBER HARVESTER (MTH) 2020 Renewal Application

Renewal Application Instructions

1. Fill in complete information at the top—including middle name or initial—company and contact info.
2. List courses completed, including the approved hours/credits of CLE (Continuing Logger Education) or CFE (Continuing Forester Education) you are claiming for renewal purposes. Ensure that your education credits meet the requirements listed below. *Attach copies of official certificates for CFE credits, non-GA CLE credits and any online credits claimed.*
3. Enclose a payment of \$40 for the renewal fee, made payable to UGA-Master Timber Harvester. Mail to the address at the bottom of the renewal form.

ADDITIONAL RENEWAL GUIDANCE

Continuing Education Requirements: Applicants must complete **at least eight (8) hours** of approved continuing education hours during each renewal period (2 years) preceding their expiration date.

- **At least 2 of the 8 required hours *must* be CLE Category A (BMP training).**
The remaining 6 hours may be in Category A, Category B, or any combination.
- CFE credits approved by the Society of American Foresters may also be counted for purposes of GA-MTH renewal; however, CFE credits may only be counted as Category B.
- No other professional accreditations (including ISA, GSWCC, etc.) will be accepted in lieu of approved CFE or CLE credits. First Aid and CPR training not specifically approved for CLE credit are ***no longer*** credited towards your continuing education requirement.

Course Certificates or Contact Hour Notices: If a course was approved for CLE or CFE credit, the education provider was directed to give you a standardized certificate, which bears the CLE or CFE logo and lists your specific course information with approved credit hours. Because the Society of American Foresters classifies CFE credits solely as category 1 or category 2, for GA-MTH purposes you should allocate CFE credits exclusively to Category B.

Renewal Cycle: All continuing education must be completed within the two-year period preceding the expiration date (e.g. December 31 of your designation's expiration year). Continuing education credits *cannot be applied* towards more than one renewal or reinstatement period.

Renewal Deadlines: On-time renewals *must be postmarked by December 31*. Late renewals will not be accepted. (Reinstatement is required for any designations not renewed by the deadline. Please refer to our website, gamth.org, for more information)

Audit: Renewal applications will be randomly selected to confirm satisfactory completion of continuing education claimed. For this reason, we recommend that you keep original documentation for at least two years for any completed training you claimed on your renewal application.

Questions? Additional program guidance and other forms are available on our website at gamth.org, or by contacting our office at 706-542-7691.
